Abuja, Nigeria.

Dear Hiring Manager,

Re; Graduate Engineer Internship Position

I am writing to apply for the position of a Graduate Engineer internship position at your company. teamwork with managerial and technical knowledge is a must in the construction industry and I pride myself as a very effective team player.

I have enclosed my resume to support my application. It shows I would bring important skills in the position including

- I have months of experience working on highly complex construction projects and volunteered as a surveyor for different projects
- Liaised with stakeholders including contractors and engineers to meet budgetary restrictions and project completion deadlines.
- Estimated quantities of construction materials, reviewed market cost and took part in material procurement and reduced the material procurement by 4%.

I am really interested in working with GIZ since embarking on its big projects and the professional development and personal growth opportunities for graduate engineers are impressive within the company. So, these attributes attract me to apply for the position.

I would welcome the opportunity to speak with you more about this position, and how I could use my skills to benefit your organization along with my career development.

Thank you for considering my application. I look forward to hearing from you.

Yours sincerely

Ukezi Francis
